Subject: Help Stop Illegal Net

**SORRY, THIS IS NOT A TYPICAL
TEXAS CATCH. MAYBE FLOR
CALIF ??**

As you all know, I rarely take up :

that motivates me to contact friends for help. However, I'm convinced it's a worthy cause, so that's why I'm seeking your help now.

We must be extremely careful not to overfish certain species and practice conservation to keep the available stock at a high level. It's every sportsman's duty to keep only what he will use and please release what he knows he cannot use.

As you can see from the regrettable instances shown below, such indiscriminate and wasteful net fishing is a serious

problem.

Please practice catch and release
so there are enough to go around
Do what you can and please pass

Subject: Fwd: FW: Where do U stand or crouch?

I have friends on both sides of the handgun issue, those who believe easy access to hand guns is not good for this country and those who believe government has no business dictating ownership one way or the other.

I have gained valuable understanding from both arguments. I have made my final decision. Certain Americans,

**especially those who are
more likely to become
victims of crime, need to
own and become
proficient with
handguns!**

New Canadian Money

Darned clever, those Canadians!

Perhaps America and Europe should consider changing their currencies too.

Due to the global war on terrorism, many terrorist organizations have had their finances frozen. Consequently, they have resorted to counterfeiting.

The Canadians have decided to redesign their currency to prevent the radical Muslims from even touching it! It is also hoped that this will have a positive effect on tourism.

<http://www.rulesforuse.org>

Muslim terrorists have to kill themselves if they see a naked woman.

Those Canadians always find the solution! Must be the pure water up there in the North!

Now this real gun handling

What is wrong in this picture?

The first things I noticed were that she's not wearing ear or eye protection and she is jerking the trigger. Her grip is also too low, resulting in noticeable muzzle flip. I also notice that she fired off 537 rounds without reloading before I sent it to YOU.
